Summary

Full Stack Developer passionate about trying new technologies and building clean, scalable products. Focused on writing simple code that performs well and grows with user needs.

Skills

Frontend: HTML, CSS, JavaScript, React.js, Next.js, TypeScript, TailwindCSS, GSAP, Framer Motion

Backend: Node.js, Express.js

Databases & BaaS: MongoDB, Firebase, Supabase, Appwrite

Experience

Full Stack Developer and Team Lead

May 2024 – June 2024

Indiefluence, VPS Ventures, Kurukshetra

- Successfully led a team of developers across 13+ projects, collaborating with UI/UX teams to deliver production-ready apps.
- Decreased development time by 25% by optimizing workflows and selecting appropriate tools for each project.
- Translated client requirements into scalable solutions—resulting in 20% faster delivery and improved client satisfaction.
- Researched and implemented cost-effective tools (e.g., Supabase, Appwrite) that reduced backend overhead by 30%.
- **Technologies used:** MERN, Next.js, TypeScript, TailwindCSS, GSAP, Framer Motion, Node.js, MongoDB, Firebase, Supabase.

Full Stack Intern

May 2024 – June 2024

Indiefluence, VPS Ventures, Kurukshetra

- Assisted in full-stack development, gaining hands-on experience with React, Node.js, and MongoDB.
- Collaborated with senior developers to build and debug features.
- Built RESTful APIs using Node.js and Express for a web application.

Projects

Rabbit AutoCare (In Progress)

rabbitautocare.com

- Feature-rich e-commerce platform built with Next.js and Supabase, styled using Tailwind CSS and custom CSS.
- Includes animated UI using GSAP and an admin panel for managing products, kits, stock, coupons, and discounts.
- Interactive dashboard with micro-tabs and graphs to visualize sales, revenue, and product statistics.

BigByte Health

bigbytehealth.com

- Medical tourism platform connecting users with top doctors and treatment options along with tourism planning.
- Built using Next.js, Tailwind CSS, Node.js, and MongoDB for a scalable and secure full-stack architecture.

MYRO Robot Website

myro.bot

- Developed and launched in 2024 the official wall paint robot website with improved performance and design.
- Achieved a 40% performance boost through an optimized layout and a straightforward, clean user experience.
- Currently working on a future design update for the 2025–2026 release.

Education

Kurukshetra University

Aug 2021 – May 2024

Bachelor of Computer Applications, JMIT (Seth Jai Parkash Mukand Lal Institute of Engineering and Technology)
